Celestine

The only difference from Aplite Senso electronic infrared set is the material of flushing plate. Convenient for installation in public sanitary spaces, where the possibility of exposure to vandalism is present.

„MAY THERE BE WATER“

INTELLIGENT SAVING

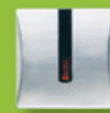

EFFICIENT HYGENE

PERFECT FUNCTION

Surely, you have already experienced a situation in a public sanitary space, where by no means you did not wish to touch anything. For you, we have developed system SENSO with non-contact flushing, a solution for abovementioned inconveniences. A movement with your hand or closeness of your body is sufficient to trigger a special sensitive sensor on the cover of flushing cistern and simply think of: "MAY THERE BE WATER!"
